Examiner : Bernard Rojas

Docket No. : 056226.57920US

Customer No. : 23911

Title : High Frequency MEMS Switch Having a Bent Switching Element
and Method for Its Production

RESPONSE TO NOTICE OF NON-COMPLIANT AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

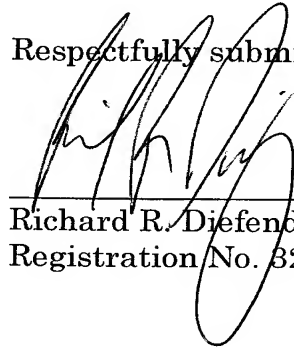

This Response is respectfully submitted following receipt of the Notice of Non-Compliant Amendment dated June 18, 2009.

The Notice dated June 18, 2009, is inappropriate. **No amendments to the claims or any other part of the application were made by the Reply filed March 24, 2009, and a listing of claims is unnecessary.** The documents submitted on March 24, 2009, included **(1)** a Reply (2 pages) presenting remarks only, **(2)** a Certification of Translation Accuracy (1 page), **(3)** a first attachment (Attachment A) including 22 pages of English text referred to in the Certification of Translation Accuracy, as well as two drawing sheets, and **(4)** a second attachment (Attachment B) including 16 pages of German text referred to in the Certification of Translation Accuracy, as well as two drawing sheets.

It appears from the Patent Application Information Retrieval (private PAIR) system that inaccurate document descriptions are now associated with the documents submitted on March 24, 2009. This in no way renders the Reply filed March 24, 2009, non-compliant with applicable rules.

All documents as submitted on March 24, 2009, were in proper form. Should the Examiner disagree, or if there are any questions regarding this Response or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.

Respectfully submitted,

Richard R. Diefendorf
Registration No. 32,390
